Commit with Courage 🦁

Act with Empathy ❤️

Embrace Diversity 🌍

Stay Curious 🤔

Strive for Balance ⚖️

Make Progress 🏔️

Commit with Courage

When the road gets rocky, we face our fears and forge ahead. We follow the science, even if it's inconvenient. We commit to our mission, even when we know we might not succeed. And when we fall flat, we dust ourselves off, re-evaluate, and take another leap.

Act with Empathy

We never leap alone. Even if we start on our own, we finish as a team. Connection is key to every action we take. We put ourselves in each others' shoes no matter how funky they smell. We work hard because we care hard. We're in this together, and we're stronger as a tribe.

Embrace Diversity

Life experience matters. We seek opinions outside our own and welcome challenging viewpoints. We grow stronger through the collision of cultures and ideas. To make progress, we must make room for every voice.

Stay Curious

We listen to the voices that push the conversation forward. We always ask “why” and we’re open to being wrong. Truth triumphs over ego, so we’re unafraid to ask the questions that get us to our goal. We treat every day as a new opportunity to expand our minds.

Strive for Balance

Our humanity is our superpower and we nurture it. We know that to bring your best self to work, you need more than just work. We make space for all the other joys this life has to offer. We savor the journey: the peaks, the valleys, and every step on the climb to the mountain top.

Make Progress

We move forward. We never let perfection stand in the way of improvement. We bias toward action. We're on a mission to advance the health of the whole human race, and we're going to keep moving, step-by-step, inch-by-measurable inch until we get there.
